

CantiLever

short pull Lever

compatible with cantilever brakes & road caliper brakes including PAUL Racer, Touring & Neo-Retro brakes

made in USA

Nice parts since 1989

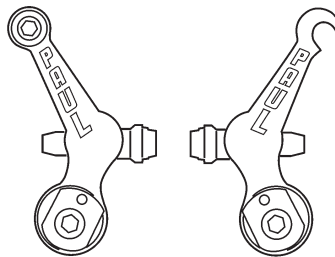

INSTALLING *CantiLever*

PLEASE READ CAREFULLY

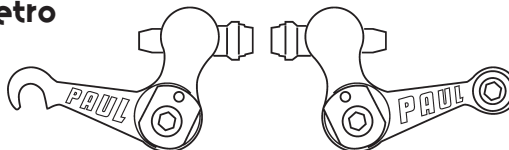

Periodically lube with a few drops of chain lube. DO NOT OVER-TIGHTEN HANDLEBAR CLAMP SCREWS. The lever should move on the handlebar when tugged on, this will prevent the lever from breaking in a crash. Warranty does not cover damage to levers that are over-tightened.

compatible with these PAUL brakes:

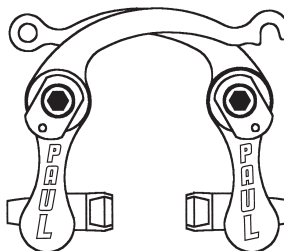

touring canti

neo retro

racer
