**SRAM
SHIFTER
MOUNT**

This adapter is made for use with SRAM trigger shifters on 31.8 dropbars. It is compatible with all current shifters but is designed for the XX1 drivetrain.

1. Mount on 31.8 segment of handlebar with "PAUL" facing forward.
2. Tighten mount screws to handlebar manufacturer's specification.
3. Install shifter to bottom of mount with provided screw.
4. Test ride and adjust as needed.
